

July 20, 2020

Dear Representatives, Families and Friends of our Residents:

Governor DeWine has announced that, later this month, skilled nursing facilities will be permitted to begin allowing outdoor visitation with residents so long as all safety standards are met. In order to ensure that we have met the criteria for safe outdoor visitation, the Ohio National Guard will be conducting baseline testing for our facility on July 28, 2020. We are optimistic that once we receive the results of these tests, we will be able to permit outdoor visitation.

We will provide you with an update on our visitation policy, including visitation guidelines, once we are satisfied that we will be able to meet all safety standards for outdoor visitation.

We still offer and encourage you to schedule virtual visits with your loved ones. We appreciate your support and understanding as we navigate these challenging times. Please contact the Administrator with any questions and concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Holly Gerbasich, LNHA".
